 MATs SUMMIT 2022

'We want the academy trust system to continue to grow and develop, with outward-facing academy trusts engaging the whole sector, more schools in strong academy trusts and existing academy trusts becoming stronger,'
Building Strong Academy Trusts, DfE, May 2021

As your trust grows and develops, how are you building a strong executive team inspired by best practice and lessons from other sectors? Equip your MAT leadership team to drive forward impact, reduce disadvantage and ensure excellence in education.

Gain new ideas for efficiency and learn lessons from other trusts and their merger and acquisition journey. Take time out with your team and build your connections with other executive leaders to return refreshed and inspired to drive outcomes for the nation's children and young people, more than half of whom now are educated in an academy.

This year's summit will provide practical ideas to develop your strategy and ensure the impact of your trust. Invest in your leadership skills, recognise and prepare for tipping points in your growth journey, and make decisions that equip your multi-academy trust for the future.
